RYW351

Solar Four-Side Wall Light with Motion Sensor

HIGHLIGHT

- **SOLAR POWERED**
  5.5 V / 1 W solar panel
- **FOUR-SIDE LIGHT**
  Wide-angle coverage
- **MOTION SENSOR**
  3–5 m, 120°
- **THREE MODES**
  Select with one button
- **WEATHER RESISTANT**
  Waterproof, dustproof

RENYI RYW351 is a compact solar wall light with LED panels on four sides, so the light spreads over a wide area. A built-in sensor detects people at 3–5 m over a 120° angle, and a button on the lamp switches between three working modes. The 800 mAh battery is charged by the solar panel on top, so no wiring is needed. The ABS housing is waterproof and dustproof for outdoor use at gates, courtyards, village roads, residential compounds and parks.
